

Built in Maldives, Dhoni Stella yachts are a unique combination of tradition and comfort. They are the first live-a-board designed on the model of the legendary Kalhuofummi, the miraculous 'dhoni' of the Maldivian hero. The boats are largely built by using local wood and many details and finishing recall the antique boat with simplicity and elegance.

Dhoni Stella are private charters, ideal to experience in exclusivity the best of the Maldives: diving, fishing, snorkeling, or visits to desert islands and charming resorts. A cruise on Dhoni Stella is an enriching journey on board of an authentic traditional boat.

THE CABINS

Dhoni Stella hosts two elegant cabin suites with local décor accents and the exotic warmth of the teak and red meranti woods. Each cabin is located at sea level with large windows, excellent ventilation and wonderful sea view. All our cabin suites have ample space for personal effect storage, large en-suite bathroom, air conditioned with individual climate control, flat TV and DVD.

DINING - SUN DECK

The dining of Dhoni Stella is a comfortable terrace on the sea. Our chefs prepare International cuisine with an Asian flair or the most traditional Western and Italian dishes. The top deck has sun beds with comfortable spacious area.

WATERSPORTS

Dhoni Stella yachts have a fully equipped Dive Center, located at the aft deck. The platform is also equipped with fishing gears and rods holders, for trolling and spinning. A large motorized dinghy is also available.
